

# MEDICAL & SCIENCE EXPLORATION AT DUNBAR ELEMENTARY MAGNET SCHOOL 1730 UNION STREET | TAMPA, FL 33607 | 813-276-5677

 @Dunbar\_Magnet

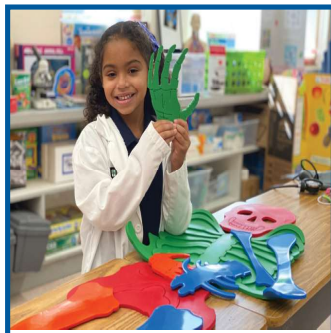

## A MAGNET PROGRAM *A Magnet Program*

### Have You Heard...

Dunbar Elementary Magnet School has the prescription for success! Through hands-on investigations and inquiry based science learning opportunities, Dunbar Elementary Magnet School provides a rigorous program of study which is driven by a culture of high expectations and student ownership. We encourage our students to positively impact the world through our character education program and an emphasis on medical and science integration.

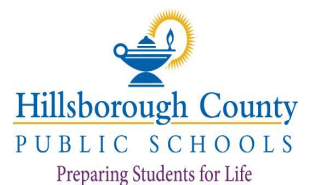

Dunbar's mission is to integrate medical sciences using meaningful explorations within all content areas. Students have an ongoing opportunity to engage in real-world learning situations within the medical and scientific community not only through enhanced curriculum instruction, but also through our partnerships with The B.E.S.T. Academy, Rassmussen College of Nursing, Tampa General Hospital, USF Health, University of Tampa School of Nursing, More Health, Inc., The Leukemia and Lymphoma Society, and more!

Every Dunbar Medical Student is assigned to one of four houses upon enrollment: House of Neurology, House of Physiology, House of Zoology, and House of Botany. Together with their housemates, students learn how to keep a PULSE on their learning by: Participating in their learning, Uniting in their community, Listening attentively, Showing kindness, and Empowering themselves and others. Students in each house also work together to complete a service learning project to give back to our West Tampa community. These student-led projects, under the supervision of our caring teachers and staff, inspire our students to become contributing members of society who will make positive changes to our community and world.

## Points of Pride

- Students and teachers engage in medical explorations and wear scrubs on #MedicalMondays
- Medical School Lab for medical activities and guest speakers
- Medical House Program: Houses of Neurology, Zoology, Physiology, and Botany help students with a deep-dive into their interests!
- Service Learning Projects, student leadership roles, and medical-based field trips for each House
- One-to-One Technology Classrooms
- Annual White Coat Ceremony to Honor 5th Grade Grads!
