

Rodgers Middle Magnet School Cambridge International Honors Institute

What is the Cambridge Honors Institute?

High intensity learning at an accelerated pace providing students with enrichment experiences beyond the curriculum required by the State of Florida.

Students in the Honors Institute must be capable of learning independently and working beyond the normal expectations for academic growth.

Students in the Honors Institute are highly motivated and already meeting or exceeding the proficiency standards set forth by the State of Florida on the Florida Standards Assessment and End of Course exams.

What are the benefits?

Honors Institute students are a cohort of scholars who share an academically focused mindset.

Honors Institute students can potentially earn 6 High School Credits including:

- Algebra or Algebra 1 Honors
- Spanish 1 and Spanish 2
- Agricultural Foundations
- Robotics and Science
- Possibly Geometry depending on qualified students

Successful Honors Institute students will...

- Thrive in the collaborative and rigorous academic setting
- Make yearly gains on state assessments
- Be proactive when absent as every student is an integral part of the institute
- Monitor their behaviors and help their peers be successful citizens
- Communicate with their parents on academic performance and upcoming projects/presentations.

Who can apply?

Any student zoned for Rodgers Middle Magnet School or accepted in the Cambridge International Magnet program at Rodgers.
