TABLE OF CONTENTS

LETTER FROM THE PRINCIPAL

MRS. KATIE ROCHA

Dear Parents and/or Guardians,

As we approach the upcoming academic year, it's time to consider the variety of courses available at Newsome High School for your student. This crucial decision will shape their academic journey and lay the foundation for future endeavors. Newsome High School offers a diverse range of courses, each designed to cater to different interests, strengths, and career paths of our students. I encourage you to take some time to review the comprehensive course catalog we have provided. It outlines the various subjects, electives, and advanced courses available to our students.

Selecting the right courses is pivotal to your student's academic success and personal growth. Consider their interests, strengths, and aspirations when evaluating the options. Engaging in subjects that resonate with them will not only foster a love for learning but also contribute to their overall development.

It's essential to strike a balance between challenging courses that encourage intellectual growth and those that align with your student's passions. We offer multiple Advanced Placement (AP) classes, the AICE program, special interest electives, and a variety of career and technical classes. Encourage them to explore different fields, allowing for a well-rounded educational experience.

In closing, I would like to express my sincere appreciation for your support and involvement. It is through our collective efforts that we can provide the best educational experience for our students. Feel free to reach out if you have any questions or if you would like additional guidance in this process. We are here to assist you in any way we can. Together, we can ensure that our students embark on a journey tailored to their unique talents and aspirations.

Warmest Regards,

Mrs. Katie Rocha
Principal of Newsome High School

Schedule Change Policy

Student course selections impact the hiring of teachers and the purchasing of textbooks and other resources. Therefore, adjustments to schedules will be limited as follows:

- Valid reasons for schedule changes include counselor error, computer error, failing a prerequisite course, passing a course in summer, passing a night or virtual school course, missing a requirement for graduation, or not having the proper prerequisite.
- Elective changes will not be honored due to teacher unit allocation.
- Changes will not be considered for teacher preference including “teaching style”.
- Failure to complete summer reading or assignments does not constitute a valid reason.
- Changes will not be made to accommodate a lunch period request.

If a schedule change request is approved:

- Understand that it may mean your entire schedule will have to be altered, which may result in different teachers, lunch period, and class periods.
- It cannot be changed back to the original schedule.
- The student is responsible for all class work from the beginning of the semester, regardless of the date the student entered the class.
- A transfer grade from the previous class will follow with you to the new class.

Please note: The school retains the right to change schedules because of unbalanced class loads, unit loss or gain, or other factors which affect the total program.

Cambridge AICE Program & Courses

Cambridge AICE FAQs

Q: What grade-level can take AICE Courses at Newsome?

A: Beginning in 2023–2024 Newsome High School will offer AICE Courses to incoming 9th graders ONLY. In 2024–2025 Newsome will opens up a second phase of AICE courses to 10th graders.

Q: What is AICE?

A: The Advanced International Certificate of Education (AICE) is an internationally recognized diploma awarded to students for the satisfactory completion of a series of academically rigorous courses specific to AICE in high school. Students who pass individual AICE exams will earn college credit for those exams passed. The AICE program is equivalent to IB...with the advantage of having flexibility to take AICE courses based on students strengthens and interest.

Q: What are the benefits of AICE?

A: AICE not only prepares students to enter college with up to 30 hours of credit, but it also provides them with the skills required to be successful once there. In addition, students who earn the AICE Diploma will qualify for the Florida Academic Bright Futures Scholarship. See AICE Counselor for more information.

Q: What do I have to do to earn an AICE Diploma?

A: Students must pass seven credits worth of examinations. At least one examination must come from each of the four subject groups: Mathematics and Sciences, Languages, Arts and Humanities, and Interdisciplinary Skills Based.

Q: Do students have to earn the full AICE Diploma to earn college credits?

A: No. Colleges award credit on a subject-by-subject basis according to grades earned on individual examinations passed.

Q: Do many universities give college credits for AICE exams passed?

A: Yes. University of Cambridge International Examinations publishes a list on their website (go to www.cie.org.uk click on the 'Recognition' tab and then scroll down to the 'Useful documents' section) of US universities that have provided written statements of their AICE recognition policy.

Q: Do all the schools in Florida accept AICE exams?

A: Yes. All the colleges and universities in Florida honor AICE Exams and give credit for passing scores.

Q: How many college credits can be earned through AICE?

A: Colleges and universities can award between 30 and 45 credit hours.

Q: Does AICE help towards Florida Bright Futures?

A: If a student earns an AICE Diploma, complete 100 hours of community service, fills out the Florida Financial Aid Application then the student will automatically earn the Academic Scholars Award. You will not have to get the benchmark score on the ACT or SAT.

Q: How do AICE examination grades compare with US Grading Scale?

Passing grades available on AICE exams range from A to E with A being the highest. Below is a comparison chart for US Grades, AP scores and Cambridge Grading Scale.

US Grades	AP Scores	Cambridge Grading Scale	Cambridge Qualitative
A	5	A*, A	EXCELLENT
B+	4	B	GOOD
B		C	
C+	3	D	SATISFACTORY
C		E	
D	2	F	WEAK
		G	
F	1	U	UNGRADED

Newsome High School

AICE Course Progression

To earn the Cambridge AICE Diploma, learners must achieve a minimum of seven credits (including Cambridge International AS Level Global Perspectives & Research) from subject groups 1, 2, and 3 (and optionally Group 4). At least one credit must come from each of Groups 1, 2 and 3. The remaining credits can come from any of the groups. A maximum of two credits can count from Group 4.

CAMBRIDGE AICE COURSES

GROUP 1: MATH & SCIENCES

ENVIRONMENTAL MANAGEMENT *Counts in either Group 1 or Group 3*

Prerequisite: Biology

1 Credit

Grades: 10-12

AICE Environmental Management develops scientific knowledge and understanding of global environmental issues and theories, and of the policies and strategies for managing the environment. The course covers the sustainable use and management of resources, and strategies that aim to protect environments. Learners will interpret and analyze data and do investigative work.

MARINE SCIENCE *Coming in 2025-2026*

Prerequisite: Chemistry

1 Credit

Grades: 11-12

AICE Marine Science provides a coherent and in-depth exploration of the marine environment. We will use a combination of scholastic materials and hands-on laboratory experiments to make real life connections to what students will learn. We will heavily implement the scientific method to think critically about the ocean, analyze data and solve problems. This course aims to help students better understand and appreciate the creatures around us, the marvels of the ocean, and the amazing processes of life that take place within it. With this understanding students will be equipped with the knowledge they need to make informed decisions about life and the world around them.

PSYCHOLOGY *Counts in either Group 1 or Group 3*

Prerequisite: None

1 Credit

Grades: 10-12

AICE Psychology encourages learners to think like a psychologist. The course provides students opportunities to explore key concepts and debates that underpin the subject of psychology and develop the skills of interpretation, application, analysis and evaluation while studying a range of stimulating topics and real-world issues. Key concepts covered are nature versus nurture, ethics, research methods, and more.

PHYSICAL EDUCATION *Counts in either Group 1 or Group 3*

Prerequisite: None

1 Credit

Grades 10-12

The Physical Education syllabus is both practical and theoretical, covering anatomy and physiology, movement skills and contemporary studies in sport. Learners are encouraged to try out a range of physical activities, including team and individual sports, games, and outdoor activities, and then use the theoretical knowledge they have gained to analyze the different factors influencing performance. The course also encourages learners to understand and explain global trends in Physical Education and Sport.

CAMBRIDGE AICE COURSES

GROUP 2: LANGUAGES

ENGLISH LANGUAGE

Prerequisite: None

1 Credit

Grades: 10-12

In AICE English Language, students will develop skills to make critical and informed responses to a wide range of texts. Students will also demonstrate their ability to produce writing for specific audiences. We read and write descriptive and imaginative pieces, newspaper and magazine articles, blogs and podcast scripts, biographies and autobiographies, reviews, advertisements, and more. We focus on the way that authors create various moods and effects in their writing, and we students will work on creating these effects in their own writing.

GROUP 3: ARTS & HUMANITIES

THE FOLLOWING COURSES COUNT IN EITHER GROUP 1 OR GROUP 3:

ENVIRONMENTAL MANAGEMENT

PSYCHOLOGY

PHYSICAL EDUCATION

INTERNATIONAL HISTORY

Prerequisite: None

1 Credit

Grades: 10 - Counts as the World History Credit

is a course that covers the international relations of various European countries, as well as the USA and Japan, as they battle through colonization, World War I, the trials and tribulations of the League of Nations, the rise of fascism, World War II, and the eventual creation of the League of Nations. The course will use a variety of sources to analyze the drama that politicians like Woodrow Wilson, Harry Truman, Winston Churchill and various other leaders faced as they went through one of the darkest and most interesting times in modern history. You will learn about the rise of Benito Mussolini, Adolf Hitler, Francisco Franco, Joseph Stalin and other extreme dictators, and how the rest of western civilization battled against them. Finally, the course will end with the creation of the United Nations, which will bring the world into a new age of diplomacy and security. Students will learn skills associated with identifying bias in primary and secondary sources, as well as evaluating the reliability of sources in relation to high level questions asked. Students will also hone their writing skills as they prepare to make formulated arguments addressing questions from this period in history.

MEDIA STUDIES

Prerequisites: None

1 Credit

Grades: 10-12

Media Studies offers learners the chance to develop an understanding and appreciation of the place of media in our everyday lives. Through the coursework components they create their own media products from planning through to execution. Learners also consider and analyze examples from existing media, examining production processes and technologies and the effects they achieve.

CAMBRIDGE AICE COURSES

GROUP 3: ARTS & HUMANITIES

SOCIOLOGY

Prerequisite: None

1 Credit

Grades: 10-12

AICE Sociology offers learners the opportunity to explore the processes that are shaping current trends and to develop an understanding of the complexity and diversity of human societies and their continuities with the past. The study of sociology stimulates awareness of contemporary social, cultural and political issues, and focuses on the importance of examining these issues in a rigorous, reasoned and analytical way.

GROUP 4: INTERDISCIPLINARY & SKILLS-BASED

GENERAL PAPER

NHS AICE DIPLOMA TRACK REQUIRED COURSE

1 Credit

Grades: 9-12

The aim of AICE English General Paper is to improve learners' skills in reading and writing and the ability to think critically about contemporary issues. It also seeks to improve communication in English. As they explore modern issues in this course, learners become aware that not everyone sees the world as they do. Where we live and what we value play important roles in shaping our views. Students should strive to approach modern matters with both maturity and sensitivity.

Satisfies English III Credit.

THINKING SKILLS

NHS AICE DIPLOMA TRACK REQUIRED COURSE

1 Credit

Grades 9-12

AICE Thinking Skills develops a set of transferable skills, including critical thinking, reasoning and problem solving, that students can apply across a wide range of subjects and complex real-world issues. The course enables students to develop their ability to analyze unfamiliar problems, devise problem solving strategies, and evaluate the diverse ways a problem may be solved. During a Thinking Skills course, students learn to put their personal views aside in favor of examining and evaluating the evidence. Students learn how to make informed and reasoned decisions and construct evidence-based arguments.

GLOBAL PERSPECTIVES

REQUIRED COURSE FOR AICE DIPLOMA TRACK

1 Credit

Grades 10-12

AICE Global Perspectives and Research is the course which all AICE diploma candidates must pass through here at Steinbrenner High School. The course is designed to study large, complex, global issues from a variety of perspectives. AICE Global Perspectives uses many of the elements from 9th grade AICE courses and not only prepares students for their 11th/12th grade AICE courses, but for college and career success as well.

Advanced Placement Courses

Advanced Placement Courses

Newsome High School offers the following advanced placement courses through the College Board. They require the student to take the advanced placement examination in May. A student who scores a 3 or above may receive college credit which is recognized nationwide. Candidates for these classes should be prepared to make a strong, commitment to a rigorous curriculum. Along with receiving credit for high school and college credit, a student can also be awarded several prestigious honors by the College Board that will weigh strongly on college applications (.08 per semester bonus to the district/weighted GPA). Because of scheduling, credits, level of instruction, and several other issues, parents and students should understand that schedule changes out of AP courses will only be granted for extreme circumstances.

AP Scholar – Granted to students who receive grades of 3 or higher on three or more AP exams on full-year courses (or the equivalent).

AP Scholar with Honor – Granted to students who receive an average of at least 3.25 on all AP exams taken, and grades of 3 or higher on four or more of these exams on full-year courses (or the equivalent).

AP Scholar with Distinction – Granted to students who receive an average grade of at least 3.5 on all AP Exams taken, and grades of 3 or higher on five or more of these exams on full-year courses (or the equivalent).

National AP Scholar – Granted to students in the United States who receive an average grade of at least 4 on all AP exams taken, and grades of 4 or higher on eight or more of these exams on full-year courses (or the equivalent).

Advanced Placement Notification

All students who want to enroll in an Advanced Placement course at Newsome High School should be advised of the following:

1. The course(s) will be challenging, and students will be expected to produce work that is held to a higher academic standard; it is incumbent upon the student to work harder to raise a low grade.
2. Any student who requests an AP class will not be granted a schedule change because they changed their mind, want a different elective, or wish to take the course on FLVS.
3. A schedule change will not be granted because of teacher preference, low grades, difficulty, being over-scheduled, or because the class is too demanding.
4. Students are expected to take the AP exam in May/June and will be charged for the exam (\$40 approx.) if they do not have a College Board approved reason for missing the exam.

ADVANCED PLACEMENT COURSES

ENGLISH LANGUAGE ARTS

AP LANGUAGE AND COMPOSITION

Prerequisites: Teacher Recommendation

1 Credit

Grades: 11

The purpose of this course is to provide students with an understanding of the semantic, structural, and rhetorical resources of the English language as they relate to the principles of effective writing. Completion of the course requires that students take the AP Language exam in May. **Satisfies English III Graduation Requirement.**

AP LITERATURE AND COMPOSITION

Prerequisites: Teacher Recommendation

1 Credit

Grades: 12

The purpose of this course is to involve students in the study and practice of writing and in the study of literature. Completion of the course requires that students take the College Board AP Literature exam in May. The course follows recommended guidelines of College Board and provides the ultimate preparation for college level work. **Satisfies English IV Graduation Requirement.**

MATHEMATICS

AP PRE-CALCULUS

Prerequisites: Teacher Recommendation

1 Credit

Grades: 11-12

AP Precalculus prepares students for other college-level mathematics and science courses. The framework delineates content and skills common to college precalculus courses that are foundational for careers in mathematics, physics, biology, health science, social science, and data science

AP CALCULUS AB & BC

Prerequisites: Teacher Recommendation

1 Credit

Grades: 11-12

The purpose of this course is to provide study of elementary functions and the general theory and techniques of Calculus. A graphing calculator is required. It is required that the student take the Advanced Placement examination in Calculus AB.

AP STATISTICS

Prerequisites: Algebra 2 Honors & Teacher Recommendation

1 Credit

Grades: 12

This course explores the concepts of probability and elementary statistics. A graphing calculator is required. This course is a precursor of the statistics required by most fields of study in college. The student will be required to take the Advanced Placement examination.

ADVANCED PLACEMENT COURSES

SCIENCE

AP BIOLOGY & BIOLOGY 2 HONORS LAB

Prerequisites: Biology Honors, Chemistry Honors, Teacher Recommendation

2 Credits

Grades: 12

This course provides a college level study in biology and prepares students seeking credit. The content includes molecular and cellular biology, organismal biology, and population biology. Students are required to take AP Biology Exam. This is a block scheduled course.

AP CHEMISTRY & CHEMISTRY 2 HONORS LAB

Prerequisites: Biology Honors, Chemistry Honors, Teacher Recommendation

2 Credits

Grades: 11-12

The course is a college level course in chemistry. The content includes structure of matter, states of matter, chemical reactions, and descriptive chemistry. All students enrolled are REQUIRED to take the AP Chemistry examination. This is a block scheduled course.

AP ENVIRONMENTAL SCIENCE

Prerequisites: Biology Honors, Chemistry Honors, Teacher Recommendation

1 Credit

Grades: 11-12

This course provides students with a college level course in environmental science. The content includes population ecology, community ecology ecosystems of the world, biogeological cycles, human impacts, agriculture, pollution, current environmental issues, and ecological math. Students are required to take AP Exam.

AP PHYSICS I

Prerequisites: Biology Honors, Chemistry Honors, Physics Honors, Teacher Recommendation

1 Credit

Grades: 11-12

Algebra-Based this is the equivalent to a first-semester college course in algebra-based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; mechanical waves¹ and sound. It will also introduce electric circuits.

AP PHYSICS C

Prerequisites: Biology Honors, Chemistry Honors, AP Physics I, Teacher Recommendation

1 Credit

Grades: 11-12

Calculus-based course offering AP Physics C Mechanics in the Fall and Electricity & Magnetism in the Spring. Topics include elementary vector calculus, a review of mechanics and E&M with the addition of calculus, angular momentum and its conservation, rotational kinematics, elliptical orbits, Gauss's Law, dielectrics, RC and LC circuits, and Maxwell's equations.

ADVANCED PLACEMENT COURSES

SOCIAL STUDIES

AP ART HISTORY

Prerequisites: Teacher Recommendation

1 Credit

Grades: 10-12

This introductory college-level course introduces students to rich traditions of western and non-European art through factual knowledge and application of principles of aesthetics and comparative criticism. Course includes references to related fields in visual art, architecture, history, and geography. **NOTE: Meets Performing Fine Arts Graduation Requirement.**

AP EUROPEAN HISTORY

Prerequisites: Teacher Recommendation

1 Credit

Grades: 11-12

This introductory college-level course uses analytical skills and knowledge to examine European historic development. Specific content covered includes geographic, time-space relationships, and origin & development of the European state system. **NOTE: Does NOT meet World History Graduation Requirement.**

AP HUMAN GEOGRAPHY

Prerequisites: F.A.S.T. Reading Level of 3 - 5, and Teacher Recommendation

1 Credit

Grades: 9-12

This introductory college-level course enables students to develop higher level of concepts and skills. The content includes religion, population, studies, cultural concepts, spatial representation, political geography, land use, urbanization, economic geography, and issues related to space, place, and scale.

AP MACROECONOMICS

Prerequisites: Teacher Recommendation

0.5 Credit

Grades: 11-12

This introductory college-level course focuses on aggregated economic decision making and the role of government in the economy with an emphasis on the American free-enterprise system. Concepts include trade, globalization, comparative advantage, economic indicators, and fiscal & monetary policy. **NOTE: Meets Economics graduation requirement.**

AP MICROECONOMICS

Prerequisites: Teacher Recommendation

0.5 Credit

Grades: 11-12

This introductory college-level course focuses on economic decision-making at the household and business level with an emphasis on the American free-enterprise system. Concepts such as supply and demand, product and factor markets, costs, revenues, market forms, and profit maximization will be studied. **NOTE | Meets Economics graduation requirement.**

ADVANCED PLACEMENT COURSES

SOCIAL STUDIES

AP PSYCHOLOGY

Prerequisites: F.A.S.T. Reading Level of 3 – 5 and Teacher Recommendation

1 Credit

Grades: 10-12

This introductory college-level course provides an understanding of the systematic and scientific study of human behavior and mental processes through inquiry-based investigations. Concepts covered include the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology.

AP UNITED STATES GOVERNMENT & POLITICS

Prerequisites: F.A.S.T. Reading Level of 3 – 5 and Teacher Recommendation

0.5 Credit

Grades: 9-12

This introductory college-level course provides an understanding of U.S. government and politics through analysis of data, required foundational documents, and landmark Supreme Court cases. Topics include constitutionalism, liberty and order, civic participation in a representative democracy, competing policy-making interests, and methods of political analysis. **NOTE: Meets US Government Graduation Requirement.**

AP UNITED STATES HISTORY

Prerequisites: F.A.S.T. Reading Level of 3 – 5 and Teacher Recommendation

1 Credit

Grades: 11

This introductory college-level course develops the analytic skills and factual knowledge necessary to deal critically with the problems, content, and materials of US History. Specific content includes historic and time-space relationships, development of American westward expansion, development of American ideals and characteristics, and the effects of the American colonial experience on national development. **NOTE: Meets US History Graduation Requirement.**

AP WORLD HISTORY

Prerequisites: F.A.S.T. Reading Level of 3 – 5 and Teacher Recommendation

1 Credit

Grades: 10

This introductory college-level course provides an understanding of world history from c. 1200 CE to the present through analyzing historical sources and learning to make connections and craft historical arguments. Concepts include humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation. **NOTE: Meets World History Graduation Requirement.**

ADVANCED PLACEMENT COURSES

WORLD LANGUAGES

AP SPANISH LANGUAGE

Prerequisites: Spanish Level 4 and Teacher Recommendation

1 Credit

Grades: 11-12

AP language courses provide willing and academically prepared students with the opportunity to earn college credit and/or advanced placement. In AP Spanish Language and Culture, students are provided with opportunities to demonstrate their proficiency in interpersonal, interpretive, and presentational modes of communication. In addition, students engage in an exploration of culture in both contemporary and historical contexts.

COMPUTER SCIENCES

AP COMPUTER SCIENCE PRINCIPLES

Prerequisites: None

1 Credit

Grades: 10-12

The AP Computer Science Principles course is designed to be equivalent to a first-semester introductory college computing course. This course will introduce students to the central ideas of computer science, instilling the ideas and practices of computational thinking and inviting students to understand how computing changes the world. AP Computer Science Principles cannot be used to satisfy the required 4.0 credits of math for graduation; it is considered elective credit only.

AP COMPUTER SCIENCE A

Prerequisites: AP Computer Science Principles, Teacher Recommendation

1 Credit

Grades: 11-12

Computer Science A emphasizes object-oriented programming methodology with an emphasis on problem solving and algorithm development and is meant to be the equivalent of a college level first-semester course in computer science. It also includes the study of data structures and abstraction. This course uses Java as the primary programming language. ***Elective Credit**

Career & Technical Education Courses

CAREER & TECHNICAL EDUCATION COURSES

WHY CAREER & TECHNICAL EDUCATION?

Career and Technical Education, or CTE, is defined as the courses and programs in middle and high schools that focus on the skills and knowledge required for specific jobs or fields of work.

In other words, it is an opportunity for students to personalize their education pathway based on their career interests as they learn a set of technical and specialized skills needed to succeed in those careers. CTE programs deliver those opportunities to students, and typically include instruction, hands-on training, and industry certifications that can improve students' employability and preparedness in a career field.

The concept of Career and Technical Education has evolved over the last 160 years through a variety of legislative acts, organizations, and outreach programs to answer the economic and workforce needs of the time. Today, CTE is an integral part of our education system that prepares future-ready students for a competitive workforce and to become lifelong learners.

TOP 5 CAREER CLUSTERS BY PROJECTED GROWTH

The five career clusters below are projected to have the largest growth rate between 2023-2030.

Health Science: 18%

Information Technology: 15%

CAREER & TECHNICAL EDUCATION COURSES

AGRICULTURE & VET ASSISTING

AGRISCIENCE FOUNDATIONS

Prerequisites: None

1 Credit

Grades: 9 -12

This course is designed to develop competencies in the areas of Agri history, global importance of agriculture; career opportunities, implied scientific and technological concepts; ecosystems, agricultural safety, principles of pest management, principles of plant growth, management principles, agricultural marketing, and human relations skills. The FFA student organization is an integral part of the program. Agricultural shop and land laboratory experiences are incorporated.

Can count as a science credit.

AGRICULTURAL MECHANICS II-V

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

The purpose of this course is to prepare students for employment in the agricultural mechanical areas. The content includes instruction that prepares individuals to select, safely use and maintain hand power tools, arc and acetylene welding equipment and construction materials. Shop and land laboratory activities are a part of this program. The FFA organization is an integral part of the curriculum.

AGRITECHNOLOGY I-II

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

This course is designed to develop competencies in the areas of Agriscience industry careers, prevention and treatment of livestock diseases, livestock anatomy, wholesale cuts of meat, animal reproduction and identification; fertilization, safe use of pesticides, maintenance of tools and equipment, records keeping and employability skills. Land laboratory experiences are necessary. The FFA organization is an integral part of the instructional program.

VET ASSISTING I-IV

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

This program prepares students for employment or advanced training in the veterinary assisting industry. It focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the veterinary assisting industry: planning, management, finance, technical and production skills; underlying principles of technology; labor and community issues; and health, safety and environmental issues. Classroom, shop, and animal laboratory activities are an integral part of this cluster including the safe use and care of animal health-care instruments, animal grooming equipment, basic tools, animal restraining equipment, and field equipment. Occupational guidance and leadership development as provided by the FFA will be an integral part of the learning process.

CAREER & TECHNICAL EDUCATION COURSES

BUSINESS TECHNOLOGY

COOPERATIVE ON THE JOB TRAINING (OJT)

Prerequisites: Must have employment.

1 - 2 Credits

Grades: 11 -12

This course offers students occupational experience through a cooperative arrangement between the school and employers. Students receive instruction through experience in an agricultural occupation. These experiences are planned and supervised by the school and employer so that each contributes to the student's education and employability skills. The related-class instruction (1 credit) may be provided simultaneously with the OJT training (1-2 credits).

COMPUTER GAMING & SIMULATION

Prerequisites: None

1 Credits

Grades: 9 -12

Whether you want a career in STEM or just enjoy playing video games, Game & Simulation Foundations will sharpen your skills for the job market and eSports arena alike. In addition to creating your own playable games, you will play, analyze, and grow as a competitor. No prior knowledge or prerequisites are required. You will learn all the basics of game strategy, play mechanics, the game development process, and programming. This course is for you if you have any interest in being an eSports competitor, software developer, streamer/content creator, or if you just enjoy gaming.

CUSTOMER SERVICE I-III

Prerequisites: 2.0 GPA unweighted, No Discipline Issues, and Assistant Principal Approval.

Courses must be taken sequentially.

1 Credits

Grades: 9 -12

The purpose of this program is to prepare students for employment in customer service-related fields by introducing terminology and basic principles, technology related to customer service, human relations, leadership, organization, and communication skills necessary for success in the customer service industry. Students will also gain hands-on experience working in a job on our campus such as Student Affairs, Guidance, Main Office, Media Center, Copy Den or assisting an individual teacher.

DIGITAL INFORMATION TECHNOLOGY

Prerequisites: None

1 Credits

Grades: 9 -12

In this course students will learn digital design principles and skills used in graphic design, advertising and visual arts careers. Students will create print media such as magazines, advertisements, and brochures, as well as create designs for online web marketing and web pages. Students can earn industry certification in this course. ***Meets Practical Arts Graduation Requirement.**

CAREER & TECHNICAL EDUCATION COURSES

BUSINESS TECHNOLOGY

DIGITAL DESIGN I

Prerequisites: None

1 Credit

Grades: 9 -12

In Digital Design, students will learn the principles of great design and typography while using Adobe design software to create digital drawings, t-shirt designs, logos, product mockups, advertisements, magazine layouts, and much more. This course can be a great way for students to learn about graphic design, industrial design, product design and the basics of photo editing.

***Meets Practical Arts Graduation Requirement.**

CYBERSECURITY ESSENTIALS

Prerequisites: Algebra I

1 Credit

Grades: 9 -12

This course introduces students to cybersecurity and provides them with essential computer and networking knowledge and skills, particularly those related to cybersecurity. Learners will explore the many variations of vulnerabilities, attack mechanisms, intrusion detection systems, and some methods to mitigate cybersecurity risks, including certificate services and cryptographic systems.

PRINCIPLES OF ENTREPRENURESHIP (LEVEL I)

Prerequisites: None

1 Credit

Grades: 9 -12

This course will introduce students to entrepreneurship and the skills needed to realistically become a potential business owner. The class will cover topics such as startup procedures, finance, and day to day operations of a business. Students will be able to earn an industry certification. ***Meets Practical Arts Graduation Requirement.**

PRINCIPLES OF ENTREPRENURSHIP (LEVEL II)

Prerequisites: Principles of Entrepreneurship

1 Credit

Grades: 10 -12

Nurturing the Business Mind is the next step in our comprehensive high school-level entrepreneurship curriculum, designed to further empower students to become confident, creative, and successful entrepreneurs. Students will delve into more complex business topics such as financial management, marketing strategies, and operational planning. Building upon the foundational concepts introduced in Entrepreneurship 1, this course deepens students' understanding of business principles, innovation, and the entrepreneurial mindset.

CAREER & TECHNICAL EDUCATION COURSES

BUSINESS TECHNOLOGY

SPORTS MARKETING I-III

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

This course is designed to provide students with an in-depth study of sport, recreation, and entertainment marketing in a free enterprise society and provide the knowledge, skills, and attitudes required for employment in a wide variety of sport, recreation, and entertainment marketing occupations. Students will help run the Sports Marketing Twitter and Instagram pages. They will get to do interviews, cover games, and learn the ins and outs of social media and how it relates to marketing. Students will have the opportunity to earn an industry certification.

***Meets Practical Arts Graduation Requirement.**

WEB DESIGN I - IV

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

In this course students learn HTML and CSS, then build on those skills to create a full website using WordPress. Students focus on web design principles, branding, and interactive content to improve SEO and site traffic. Students learn advanced design and animation techniques using Elementor and create an eCommerce website with WooCommerce. Students also learn skills to be a website administrator for backend development and site management. Each level of the course offers industry certifications. ***Meets Practical Arts graduation requirement.**

TELEVISION PRODUCTION

TV Production I - IV

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

Have you ever taken a video camera and made a short film with your friends? Have you ever seen a video project done by one of your classmates and wondered if you could do that? Well, if you have, then Television Production is the class for you. Here you will learn the basics of camera usage, as well as being introduced to Adobe Premiere and the rest of the Adobe Creative Cloud Apps. Several projects are created throughout the year, culminating in a full-blown music video. Many of these projects are seen on the WOLF morning show. This is the prerequisite class for TV 2 and above. ***Meets Practical Arts graduation requirement.**

CAREER & TECHNICAL EDUCATION COURSES

CRIMINAL JUSTICE

CRIMINAL JUSTICE I - IV

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

These courses help students develop a better understanding of the three components of the Criminal Justice System-policing, courts and corrections. Our criminal justice teachers are prior law enforcement officers, and they often parallel their experience with course curriculum.

Students participate in role playing scenarios as well as some aspects of crime scene processing such as fingerprinting and sketching. Students will have the opportunity to earn 911 Public Safety Telecommunicator State Certification in 911 Dispatcher Certification.

Family & Consumer Science Courses

FAMILY & CONSUMER SCIENCES

FAMILY & CONSUMER SCIENCES ESSENTIALS (SENIOR SURVIVAL)

Prerequisites: None

1 Credit

Grades: 12

This “seniors-only” course focuses on developing the skills needed to live life on your own once you graduate! Topics range from interviewing and jobs skills to kitchen basics, banking, establishing credit, filing a tax return, buying a car, insurance, getting your first place and many more things you need to know to become an independent, functioning adult.

PERSONAL & FAMILY FINANCE

Prerequisites: None

0.5 Credit

Grades: 9 -12

This course is designed to provide students with life skills for current and future financial planning! Students will gain knowledge in the following topics; budgeting, taxes, credit, income, insurance, financial institutions, investing, savings plans, and the roles or responsibilities of consumers. Students will conduct real life projects to apply their finance skills.

PRINCIPLES OF FOOD PREPARATION

Prerequisites: None

0.5 Credit

Grades: 9 -12

This “hands-on” course helps students learn their way around the kitchen to successfully prepare a meal! In the kitchen labs, students will practice cutting, mixing, cooking and measuring while having the opportunity to prepare and taste a variety of ethnic and regional cuisines. Students will learn proper food safety, storage, and analyze how ingredients affect food preparation, cooking and the outcome of a recipe!

JROTC Courses

JROTC

JUNIOR RESERVE OFFICERS TRAINING CORPS

LEADERSHIP EDUCATION I - IV

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9-12

Includes Leadership-Theory and Application, Foundations for Success In Life, Career, Health and Wellness, World Geography, and Citizenship and American History. Emphasis is placed on hands-on training and motivating cadets to excel in all undertakings. Curriculum becomes increasingly more cadet led as students' progress through the leadership education levels. JROTC Levels III and IV are honors-level courses.

LEADERSHIP TECHNIQUES

Prerequisites: Must also be enrolled in Leadership Education II, III, or IV and Teacher Recommendation

1 Credit

Grades: 10-12

This class will teach cadets the necessary techniques they need to use to be successful on the JROTC team(s) they plan to participate in. This class is not mandatory for cadets to be allowed to participate on a JROTC team, but it will give the cadet an advantage that his/her counterpart will not have. This class does not replace the core JROTC classes which are required to participate on a JROTC team.

AVID

Advancement Via Individual Determination

AVID

ADVANCEMENT VIA INDIVIDUAL DETERMINATION

AVID provides scaffolded support that educators and students need to encourage college and career readiness and success. Regardless of their life circumstances, AVID students overcome obstacles and achieve success. They graduate and attend college at higher rates, but more importantly, they can think critically, collaborate, and set high expectations to confidently conquer the challenges that await them.

AVID I - IV

Prerequisites: Application Required & courses must be taken sequentially. AVID III & IV are honors-level courses.

1 Credit

Grades: 9-12

This course is designed to enable students to develop fundamental skills aligned with current curriculum. The content includes providing academic instruction and other support for students taking college preparatory/AP courses at the high school level; strategies for acquiring, storing, and retrieving information; strategies for oral and written communication; helping students to build skills for personal success.

Enrollment* at Four-Year College Campuses: 2020-2021

Performing & Fine Arts Courses

PERFORMING & FINE ARTS COURSES

ART

BASIC CERAMICS

CERAMICS & POTTERY II

CERAMICS & POTTERY III (HONORS)

Prerequisites: Courses must be taken sequentially.

0.5 Credit for Basic Ceramics

1 Credit for Ceramics & Pottery 2 & 3

Grades: 9 -12

The content includes the recognition of properties, limitations and responsibilities of clay; a basic understanding of clay construction through hand-building techniques; investigation of decorating techniques; and demonstration of skill with ceramic tools. All works will be original, and no commercial molds will be used. A sketchbook is required. ***Meets Performing Fine Arts graduation requirement.**

CREATING 2-D ART

2-D STUDIO ART I

2-D STUDIO ART II

2-D STUDIO ART III (HONORS)

Prerequisites: Courses must be taken sequentially.

0.5 Credit for Creating 2-D Art

1 Credit for 3-D Studio Art 2 & 3

Grades: 9-12

This course introduces students to a wide variety of media and skills including Drawing, painting, printmaking. Students will develop the basic observational & compositional skills necessary to communicate a range of subject matter, symbols, ideas, and concepts using knowledge of drawing & painting media, processes, and techniques. The content includes the following: use of tools and materials; art vocabulary; elements of art and principles of design; critical thinking and analysis; historical and cultural perspectives; connections between visual arts and other subject areas. ***Meets Performing Fine Arts Graduation Requirement.**

CREATING 3-D ART

3-D STUDIO ART II

3-D STUDIO ART III (HONORS)

Prerequisites: Courses must be taken sequentially.

0.5 Credit for Creating 3-D Art

1 Credit for 3-D Studio Art 2 & 3

Grades: 9-12

Students will investigate a wide range of media and techniques, from both historical and contemporary perspective, as they engage in the art-making processes of creating 3-D artworks, which includes sculpture, assemblage, and/or ceramics. Student artists reflect on their own artwork and that of others through critical analysis to achieve artistic goals related to craftsmanship, technique, and application of 21st-century skills. ***Meets part of Performing Fine Arts Graduation Requirement.**

PERFORMING & FINE ARTS COURSES

BAND

BAND I - IV

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

This course provides students with opportunities to develop musicianship skills in band and instrumental ensembles. The content includes enabling students to develop fundamental skills in characteristic tone production, band performance techniques, musical literacy, and music appreciation. This course requires attendance at rehearsals and performances during off-school hours. ***Meets Performing Fine Arts Graduation Requirement.**

INSTRUMENTAL TECHNIQUES I – IV

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

This course develops independence in musicianship, performance techniques and aesthetic awareness through the rehearsal and performance of varied band literature. The content includes interpreting difficult music; developing independent musicianship, tone production and performance techniques; analyzing form, style and history in the performance preparation of varied band literature; formulating critical listening skills and aesthetic values. This course requires attendance at rehearsals and performances during off school hours. ***Meets Performing Fine Arts Graduation Requirement.**

JAZZ ENSEMBLE I – III

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

The purpose of this course is to enable students to develop basic skills in jazz performance through knowledge of styles and performance techniques of varied jazz and contemporary literature. ***Meets Performing Fine Arts Graduation Requirement.**

EURHYTHMICS I - IV

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

The purpose of this course is to enable students to develop basic skills in creating, performing, and evaluating choreographed performances as an independent ensemble and in cooperation with the marching band. Emphasis is placed on dance, equipment manipulation, precision, and the relationship between music and dance. ***Meets Performing Fine Arts Graduation Requirement.**

PERFORMING & FINE ARTS COURSES

CHORUS

CHORUS I - IV

Prerequisites: Courses must be taken sequentially. Chorus III and Chorus IV require teacher audition.

1 Credit

Grades: 9 -12

This course extends experiences in basic vocal production techniques and part singing. The content includes extending development of basic musicianship skills including choral performance techniques, vocal tone production, musical literacy and music listening. ***Meets Performing Fine Arts Graduation Requirement.**

VOCAL ENSEMBLE I – IV

(ELITE SHOW CHOIR)

Prerequisites: AUDITION ONLY

1 Credit

Grades: 10 -12

This course provides students with instruction of performance techniques through small ensemble work. The course includes development of appropriate balance, blend, and stylistic interpretation through varied, appropriate choral literature. It may include instrumental accompaniment and choreography.

CHAMBER CHOIR I – IV

Prerequisites: Teacher Recommendation

1 Credit

Grades: 9 -12

The purpose of this course is to enable students to develop basic performance skills in a solo or small ensemble setting using varied high school literature. Emphasis will be placed on healthy and expressive singing, performance techniques, music knowledge, and development of critical analysis and aesthetic response to music.

KEYBOARD (PIANO) I & II

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9 -12

The purpose of this course is to enable students to develop basic keyboard skills, including interpretation of notation and performance in varied styles. *** Will meet graduation requirement for Performing Fine Arts.**

PERFORMING & FINE ARTS COURSES

ORCHESTRA / STRINGS

ORCHESTRA I - IV

Prerequisites: Courses must be taken sequentially. Orchestra II - IV require teacher audition.

1 Credit

Grades: 9 -12

This class provides the necessary training for performance in either a string orchestra or the string section of a full orchestra. Knowledge, understanding, and appreciation of musical styles and forms are gained through performance of appropriate orchestral literature. This course requires attendance at rehearsals and performances during off-school hours. ***Meets Performing Fine Arts Graduation Requirement.**

GUITAR I - IV

Prerequisites: Courses must be taken sequentially. 1 Credit

Grades: 9 -12

This course will provide introductory experience on the guitar in performance skills and interpretation of simple notation. Must furnish book and guitar. Acoustic preferred, but not mandatory. ***Meets Performing Fine Arts Graduation Requirement.**

THEATER

THEATER I - IV

Prerequisites: Courses must be taken sequentially. Theater II - IV require teacher audition.

Theater III & IV are honors-level courses.

1 Credit

Grades: 9 -12

The purpose of this course is to provide opportunities to study & perform the varied styles of theatre with special attention to the principals of stage movement, acting, singing, characterization & all other aspects of a stage production. A primary focus of this course is to enable students to develop & synthesize fundamental elements of theatre arts into final production using varied media, techniques, & processes ***Meets Performing Fine Arts Graduation Requirement.**

TECHNICAL THEATER: DESIGN & PRODUCTION I – II

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9-12

This course focuses on aspect of theatre behind the scenes. The course covers directing, light and sound, costuming/hair/makeup, props, set design and production, and safety needs for the theatre. This is a hands-on course in which students will create individual and group projects and work on technical aspects of Newsome's Main Stage plays.

PERFORMING & FINE ARTS COURSES

THEATER

THEATER, CINEMA, & FILM PRODUCTION

Prerequisites: None

1 Credit

Grades: 9-12

Students explore the elements & techniques of film and cinematic techniques and prepare a comparative for theatre, film, and literature. Public performances may serve as a resource for specific instructional goals.

MUSICAL THEATER I

Prerequisites: None

1 Credit

Grades: 9-12

Students' course work focuses on, but is not limited to, acting, vocal performance, dance, non-dance movement, and staging, which transfer readily to performances in musicals and other venues. Students survey the evolution of music in theatre from ancient Greece to modern Broadway through a humanities approach and representative literature. Music theatre students explore the unique staging and technical demands of musicals in contrast to non-musical plays. Public performances may serve as a culmination of specific instructional goals.

English Language Arts Courses

ENGLISH LANGUAGE ARTS COURSES

AP ENGLISH LANGUAGE ARTS COURSES

AP LANGUAGE AND COMPOSITION

Prerequisites: Teacher Recommendation.

1 Credit

Grades: 11

The purpose of this course is to provide students with an understanding of the semantic, structural, and rhetorical resources of the English language as they relate to the principles of effective writing. Completion of the course requires that students take the AP Language exam in May. **Satisfies English III Graduation Requirement.**

AP LITERATURE AND COMPOSITION

Prerequisites: Teacher Recommendation

1 Credit

Grades: 12

The purpose of this course is to involve students in the study and practice of writing and in the study of literature. Completion of the course requires that students take the College Board AP Literature exam in May. The course follows recommended guidelines of College Board and provides the ultimate preparation for college level work. **Satisfies English IV Graduation Requirement.**

AICE ENGLISH LANGUAGE ARTS COURSES

AICE GENERAL PAPER

NHS AICE DIPLOMA TRACK REQUIRED COURSE

1 Credit

Grades: 9-12

The aim of AICE English General Paper is to improve learners' skills in reading and writing and the ability to think critically about contemporary issues. It also seeks to improve communication in English. As they explore modern issues in this course, learners become aware that not everyone sees the world as they do. Where we live and what we value play important roles in shaping our views. Students should strive to approach modern matters with both maturity and sensitivity.

Satisfies English III Credit.

ENGLISH LANGUAGE

Prerequisite: None

1 Credit

Grades: 10-12

In AICE English Language, students will develop skills to make critical and informed responses to a wide range of texts. Students will also demonstrate their ability to produce writing for specific audiences. We read and write descriptive and imaginative pieces, newspaper and magazine articles, blogs and podcast scripts, biographies and autobiographies, reviews, advertisements, and more. We focus on the way that authors create various moods and effects in their writing, and we students will work on creating these effects in their own writing

ENGLISH LANGUAGE ARTS COURSES

CORE ENGLISH LANGUAGE ARTS COURSES

ENGLISH I – IV REGULAR

ENGLISH I – IV HONORS

Prerequisites: Honors course placement requires teacher recommendation.

1 Credit

Grades: 9-12

The purpose of these courses is to provide integrated educational experiences in the language arts strands of reading, writing, listening, viewing, speaking, language, and literature.

ELECTIVE ENGLISH LANGUAGE ARTS COURSES

DEBATE I - VI

Prerequisites: Courses must be taken sequentially. Debate II – VI require teacher recommendation.

1 Credit

Grades: 9-12

Students will increase real-world communication skills through logic & critical thinking. Class time will include preparing for Speech Competitions in Debate Events. This class will facilitate advanced research for the current resolutions in Lincoln Douglas Debate, Student Congress, Public Forum Debate, and Policy Debate. Students will be placed in a competition style venue with other students in the class to practice their debating skills. Debate V & IV are honors-level courses. ***Meets graduation requirements for Performing Fine Arts.**

JOURNALISM I

Prerequisites: None

1 Credit

Grades: 9-12

Students will investigate what makes a story newsworthy & how an idea moves from that first spark of inspiration to a polished looking newspaper page that is ready for publication. You will learn how to write a great story with eye-catching headlines and intriguing leads. You will learn about the elements of photography and photojournalism and create appealing infographics using industry standard software such as Adobe InDesign and Photoshop. We regularly discuss current events and ethical issues. You will work on the staff of the school newspaper, Wolf Tracks, or the yearbook, The Legend. This class is the required prerequisite for staff positions.

ENGLISH LANGUAGE ARTS COURSES

ELECTIVE ENGLISH LANGUAGE ARTS COURSES

JOURNALISM II – VIII (NEWSPAPER)

Prerequisites: Journalism I & teacher recommendation

1 Credit

Grades: 10-12

The content includes frequent practice in gathering information and in writing news, sports, feature articles, and editorials. Organization and management, utilization of personnel, and task organization is stressed. These classes publish the school newspaper.

JOURNALISM II – VIII (YEARBOOK)

Prerequisites: Journalism I & teacher recommendation

1 Credit

Grades 10-12

This is the class responsible for the school's most important historical document: the yearbook. Students work together to create the entire yearbook, from the theme and cover to the pictures and stories. This is entirely a student-run operation. This class requires some time outside of school for covering stories, taking photographs and creating the final layout; but the students end up with the pride in knowing that they have created something that will last a lifetime. Make a difference. Leave a legacy. Help create The Legend.

LITERATURE & THE ARTS (HISTORY OF ROCK-N-ROLL)

Prerequisites: NONE

0.5 Credit

Grades 9-12

This semester long course surveys the History of Rock Music from its roots in Blues and Jazz through its development into the wide variety that exists in today's popular music. The course seeks to help students understand both the musical and cultural roots of rock music and the ability to hear a direct relationship between those roots and the music that is currently popular while honing their writing skills. *Meets part of the Performing Fine Arts graduation requirement.

SPEECH I & II

Prerequisites: Courses must be taken sequentially.

1 Credit

Grades: 9-12

This is an introductory public speaking course to help students gain confidence with presentation skills in the classroom and competitions. Students will be coached through a variety of public speaking such as persuasive speaking, impromptu speeches, oral interpretation, Student Congress, and introductory debate. This is a class for those who fear public speaking but want to be more comfortable in front of a group of people. ***Meets graduation requirements for Performing Fine Arts.**

Mathematics Courses

MATHEMATICS COURSES

AP MATH COURSES

AP PRE-CALCULUS

Prerequisites: Teacher Recommendation

1 Credit

Grades: 11-12

AP Precalculus prepares students for other college-level mathematics and science courses. The framework delineates content and skills common to college precalculus courses that are foundational for careers in mathematics, physics, biology, health science, social science, and data science

AP CALCULUS AB & BC

Prerequisites: Teacher Recommendation

1 Credit

Grades: 11-12

The purpose of this course is to provide study of elementary functions and the general theory and techniques of Calculus. A graphing calculator is required. It is required that the student take the Advanced Placement examination in Calculus AB.

AP STATISTICS

Prerequisites: Algebra 2 Honors & Teacher Recommendation

1 Credit

Grades: 11-12

This course explores the concepts of probability and elementary statistics. A graphing calculator is required. This course is a precursor of the statistics required by most fields of study in college. The student will be required to take the Advanced Placement examination.

CORE MATH COURSES

ALGEBRA 1A & 1B

Prerequisites: None

1 Credit

Grades: 9-12

These courses provide the foundation for more advanced mathematics courses and develops the skills needed to solve mathematical problems. These courses are sequential, and both are needed before continuing. This is an entry level course for a college preparation course of study. Successful completion of this course and passing the state assessment fulfills graduation benchmarks.

ALGEBRA 1 REGULAR / HONORS

Prerequisites: None

1 Credit

Grades: 9-12

This course provides the foundation for more advanced mathematics courses and develops the skills needed to solve mathematical problems. This is an entry level course for a college preparation course of study. Successful completion of this course and passing the state assessment fulfills graduation benchmarks.

MATHEMATICS COURSES

CORE MATH COURSES

GEOMETRY REGULAR / HONORS

Prerequisites: Algebra I & Teacher Recommendation

1 Credit

Grades: 9-12

This course emphasizes critical thinking involving the discovery of relationships, their proofs, and skill in applying the deductive method to mathematical situations. This course is a prerequisite for Algebra II and is required for a college preparatory course of study. Successful completion of this course meets a graduation benchmark.

ELECTIVE MATH COURSES

ALGEBRA II REGULAR / HONORS

Prerequisites: Algebra I, Geometry & Teacher Recommendation

1 Credit

Grades: 10-12

This rigorous course continues the study of the structure of algebra and provides the foundation for applying these skills to other mathematical and scientific fields. This is the entry level course for college mathematics.

MATH FOR COLLEGE ALGEBRA

Prerequisites: Algebra II or Algebra II Honors, Teacher Recommendation

1 Credit

Grades: 10-12

This course strengthens the mathematical skills of college bound students who seek more proficiency before moving on to more advanced mathematics courses.

MATH FOR DATA AND FINANCIAL LITERACY HONORS

Prerequisites: Algebra II or Algebra II Honors

1 Credit

Grades: 10-12

This course will emphasize five areas: (1) extending knowledge of ratios, proportions and functions to data and financial contexts; (2) developing understanding of basic economic and accounting principles; (3) determining advantages and disadvantages of credit accounts and short- and long-term loans; (4) developing understanding of planning for the future through investments, insurance and retirement plans and (5) extending knowledge of data analysis to create and evaluate reports and to make predictions.

MATHEMATICS COURSES

ELECTIVE MATH COURSES

MATHEMATICS FOR COLLEGE LIBERAL ARTS

Prerequisites: Geometry and Teacher Recommendation

1 Credit

Grades 9-11

Mathematics for College Liberal Arts, instructional time will emphasize five areas: (1) analyzing and applying linear and exponential functions within a real-world context; (2) utilizing geometric concepts to solve real-world problems; (3) extending understanding of probability theory; (4) representing and interpreting univariate and bivariate data and (5) developing understanding of logic and set theory.

PROBABILITY & STATISTICS HONORS

Prerequisites: Algebra II and Teacher Recommendation

1 Credit

Grades: 12

Mathematics full year course, 1 credit. This course covers the basics of statistics. This includes one and two variable data, normal distributions, designing studies, basic probability, and testing claims.

Science Courses

SCIENCE COURSES

AP SCIENCE

AP BIOLOGY & BIOLOGY 2 HONORS LAB

Prerequisites: Biology Honors, Chemistry Honors, Teacher Recommendation

2 Credits

Grades: 11-12 Seniors Get Priority

This course provides a college level study in biology and prepares students seeking credit. The content includes molecular and cellular biology, organismal biology, and population biology. Students are required to take AP Biology Exam. This is a block scheduled course.

AP CHEMISTRY & CHEMISTRY 2 HONORS LAB

Prerequisites: Biology Honors, Chemistry Honors, Teacher Recommendation

2 Credits

Grades: 11-12

The course is a college level course in chemistry. The content includes structure of matter, states of matter, chemical reactions, and descriptive chemistry. All students enrolled are REQUIRED to take the AP Chemistry examination. This is a block scheduled course.

AP ENVIRONMENTAL SCIENCE

Prerequisites: Biology Honors, Chemistry Honors, Teacher Recommendation

1 Credit

Grades: 11-12

This course provides students with a college level course in environmental science. The content includes population ecology, community ecology ecosystems of the world, biogeological cycles, human impacts, agriculture, pollution, current environmental issues, and ecological math. Students are required to take AP Exam.

AP PHYSICS I

Prerequisites: Biology Honors, Chemistry Honors, Physics Honors, Teacher Recommendation

1 Credit

Grades: 11-12

Algebra-Based this is the equivalent to a first-semester college course in algebra-based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum); work, energy, and power; mechanical waves and sound. It will also introduce electric circuits.

AP PHYSICS C

Prerequisites: Biology Honors, Chemistry Honors, AP Physics I, Teacher Recommendation

1 Credit

Grades: 11-12

Calculus-based course offering AP Physics C Mechanics in the Fall and Electricity & Magnetism in the Spring. Topics include elementary vector calculus, a review of mechanics and E&M with the addition of calculus, angular momentum and its conservation, rotational kinematics, elliptical orbits, Gauss's Law, dielectrics, RC and LC circuits, and Maxwell's equations.

SCIENCE COURSES

AICE SCIENCE COURSES

AICE ENVIRONMENTAL MANAGEMENT *Counts in either Group 1 or Group 3*

Prerequisites: Biology

1 Credit

Grades: 10-12

AICE Environmental Management develops scientific knowledge and understanding of global environmental issues and theories, and of the policies and strategies for managing the environment. The course covers the sustainable use and management of resources, and strategies that aim to protect environments. Learners will interpret and analyze data and do investigative work.

AICE MARINE SCIENCE *Coming in 2025-2026*

Prerequisites: Chemistry

1 Credit

Grades: 11-12

AICE Marine Science provides a coherent and in-depth exploration of the marine environment. We will use a combination of scholastic materials and hands-on laboratory experiments to make real life connections to what students will learn. We will heavily implement the scientific method to think critically about the ocean, analyze data and solve problems. This course aims to help students better understand and appreciate the creatures around us, the marvels of the ocean, and the amazing processes of life that take place within it. With this understanding students will be equipped with the knowledge they need to make informed decisions about life and the world around them.

CORE SCIENCE COURSES

BIOLOGY I REGULAR / HONORS

Prerequisites: 8th Grade Physical Science for Honors

1 Credit

Grades: 9-12

This course provides exploration experiences and activities in the fundamental concepts of life. The content includes scientific method, scientific measurement, laboratory safety and use of laboratory apparatus, biochemistry, cell biology, cell reproduction, genetics, biological change through time, classification and taxonomy, microorganisms and disease, structure and function of plants and animals, and ecological relationships. State assessment is required.

SCIENCE COURSES

ELECTIVE SCIENCE COURSES

ANATOMY & PHYSIOLOGY HONORS

Prerequisites: Biology Honors, Chemistry Honors, & Teacher Recommendation

1 Credit

Grades: 11-12

This course will provide activities in the structures and functions of the components of the human body. The content includes anatomical terminology, cells & tissues, body systems, disease process, immune response, & inheritance.

ASTRONOMY HONORS

Prerequisites: None

1 Credit

Grades: 10-12

This course provides students with a study of the universe and the conditions, properties, and motions of bodies in space. The content includes astronomical instruments, the celestial sphere, the solar system, earth-moon system, stars, solarometry, and discoveries from planetary missions.

CHEMISTRY REGULAR / HONORS

Prerequisites: Biology, Algebra 1, Geometry, Algebra II (for honors course), & Teacher Recommendation.

1 Credit

Grades: 10-12

These courses provide students with the study of the composition, properties and changes associated with matter. The content includes classification and structure of matter, atomic theory, periodic table, bonding, chemical formulas, chemical reactions and balanced equations, behavior of gases, physical changes, acids, bases & energy associated with physical & chemical changes.

EARTH & SPACE SCIENCE

Prerequisites: Biology & Teacher Recommendation

1 Credit

Grades: 10-12

This course includes astronomy, geology, and meteorology. Elements of chemistry and life science will be examined in the context of the sun, stars, and planets, magnetic fields, nuclear processes, light, heat, plate tectonics, atmosphere, weather prediction, & natural forces acting on Earth.

SCIENCE COURSES

ELECTIVE SCIENCE COURSES

ENVIRONMENTAL SCIENCE

Prerequisites: 8th Grade Comp. Science

1 Credit

Grades: 10-12

In this course students will interact directly with natural phenomena or with data collected by others using tools, materials, data collection techniques, and models. Identify, analyze, and relate the internal (Earth system) and external (astronomical) conditions that contribute to global climate change. Explain how various atmospheric, oceanic, and hydrologic conditions in Florida have influenced and can influence human behavior, both individually and collectively. Explain the significance of genetic factors, environmental factors, and pathogenic agents to health from the perspectives of both individual and public health.

FORENSIC SCIENCE I

Prerequisites: Biology, Chemistry, & Teacher Recommendation

1 Credit

Grades: 11-12

Forensic Science enables students to experience the application of science to the investigation of a crime. Students will integrate the use of scientific evidence, critical argument, deductive reasoning, problem solving, and reporting media.

MARINE SCIENCE I & II HONORS

Prerequisites: Courses must be taken sequentially, Biology, & Teacher Recommendation

1 Credit

Grades: 11-12

This course provides students with a survey of the marine science. The content includes the origin of the oceans, the nature of the marine habitat including chemical, physical, and geological aspects, ecology of the sea-energy relationships and tropic level, zonation, marine communities, classification, taxonomy, characteristics of major marine phyla/divisions, and man's interrelationships with the oceans.

PHYSICS 1 HONORS

Prerequisites: Algebra II and Chemistry

1 Credit

Grades: 11-12

This course provides students with a study of the theories & laws governing the interaction of matter, energy, and the forces of nature. The content includes kinematics, dynamics, energy, work & power, heat and thermodynamics, wave characteristics, light, electricity, magnetism, & nuclear physics.

Social Studies Courses

SOCIAL STUDIES COURSES

AP SOCIAL STUDIES

AP ART HISTORY

Prerequisites: Teacher Recommendation

1 Credit

Grades: 10-12

This introductory college-level course introduces students to rich traditions of western and non-European art through factual knowledge and application of principles of aesthetics and comparative criticism. Course includes references to related fields in visual art, architecture, history, and geography. **NOTE: Meets Performing Fine Arts Graduation Requirement.**

AP EUROPEAN HISTORY

Prerequisites: Teacher Recommendation

1 Credit

Grades: 11-12

This introductory college-level course uses analytical skills and knowledge to examine European historic development. Specific content covered includes geographic, time-space relationships, and origin & development of the European state system. **NOTE: Does NOT meet World History Graduation Requirement.**

AP HUMAN GEOGRAPHY

Prerequisites: F.A.S.T. Reading Level of 3 - 5, and Teacher Recommendation

1 Credit

Grades: 9-12

This introductory college-level course enables students to develop higher level of concepts and skills. The content includes religion, population, studies, cultural concepts, spatial representation, political geography, land use, urbanization, economic geography, and issues related to space, place, and scale.

AP MACROECONOMICS

Prerequisites: Teacher Recommendation

0.5 Credit

Grades: 11-12

This introductory college-level course focuses on aggregated economic decision making and the role of government in the economy with an emphasis on the American free-enterprise system. Concepts include trade, globalization, comparative advantage, economic indicators, and fiscal & monetary policy. **NOTE: Meets Economics graduation requirement.**

AP MICROECONOMICS

Prerequisites: Teacher Recommendation

0.5 Credit

Grades: 11-12

This introductory college-level course focuses on economic decision-making at the household and business level with an emphasis on the American free-enterprise system. Concepts such as supply and demand, product and factor markets, costs, revenues, market forms, and profit maximization will be studied. **NOTE | Meets Economics graduation requirement.**

SOCIAL STUDIES COURSES

AP SOCIAL STUDIES

AP PSYCHOLOGY

Prerequisites: F.A.S.T. Reading Level of 3 – 5 and Teacher Recommendation

1 Credit

Grades: 10-12

This introductory college-level course provides an understanding of the systematic and scientific study of human behavior and mental processes through inquiry-based investigations. Concepts covered include the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology.

AP UNITED STATES GOVERNMENT & POLITICS

Prerequisites: F.A.S.T. Reading Level of 3 – 5 and Teacher Recommendation

0.5 Credit

Grades: 9-12

This introductory college-level course provides an understanding of U.S. government and politics through analysis of data, required foundational documents, and landmark Supreme Court cases. Topics include constitutionalism, liberty and order, civic participation in a representative democracy, competing policy-making interests, and methods of political analysis. **NOTE: Meets US Government Graduation Requirement.**

AP UNITED STATES HISTORY

Prerequisites: F.A.S.T. Reading Level of 3 – 5 and Teacher Recommendation

1 Credit

Grades: 11

This introductory college-level course develops the analytic skills and factual knowledge necessary to deal critically with the problems, content, and materials of US History. Specific content includes historic and time-space relationships, development of American westward expansion, development of American ideals and characteristics, and the effects of the American colonial experience on national development. **NOTE: Meets US History Graduation Requirement.**

AP WORLD HISTORY

Prerequisites: F.A.S.T. Reading Level of 3 – 5 and Teacher Recommendation

1 Credit

Grades: 10

This introductory college-level course provides an understanding of world history from c. 1200 CE to the present through analyzing historical sources and learning to make connections and craft historical arguments. Concepts include humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation. **NOTE: Meets World History Graduation Requirement.**

SOCIAL STUDIES COURSES

AICE SOCIAL STUDIES

AICE PSYCHOLOGY *Counts in either Group 1 or Group 3*

Prerequisites: None

1 Credit

Grades: 10-12

AICE Psychology encourages learners to think like a psychologist. The course provides students opportunities to explore key concepts and debates that underpin the subject of psychology and develop the skills of interpretation, application, analysis and evaluation while studying a range of stimulating topics and real-world issues. Key concepts covered are nature versus nurture, ethics, research methods, and more.

AICE INTERNATIONAL HISTORY

Prerequisites: None

1 Credit

Grades: 10 - Counts as the World History Credit

is a course that covers the international relations of various European countries, as well as the USA and Japan, as they battle through colonization, World War I, the trials and tribulations of the League of Nations, the rise of fascism, World War II, and the eventual creation of the League of Nations. The course will use a variety of sources to analyze the drama that politicians like Woodrow Wilson, Harry Truman, Winston Churchill and various other leaders faced as they went through one of the darkest and most interesting times in modern history. You will learn about the rise of Benito Mussolini, Adolf Hitler, Francisco Franco, Joseph Stalin and other extreme dictators, and how the rest of western civilization battled against them. Finally, the course will end with the creation of the United Nations, which will bring the world into a new age of diplomacy and security. Students will learn skills associated with identifying bias in primary and secondary sources, as well as evaluating the reliability of sources in relation to high level questions asked. Students will also hone their writing skills as they prepare to make formulated arguments addressing questions from this period in history.

AICE SOCIOLOGY

Prerequisites: None

1 Credit

Grades: 10-12

AICE Sociology offers learners the opportunity to explore the processes that are shaping current trends and to develop an understanding of the complexity and diversity of human societies and their continuities with the past. The study of sociology stimulates awareness of contemporary social, cultural and political issues, and focuses on the importance of examining these issues in a rigorous, reasoned and analytical way.

SOCIAL STUDIES COURSES

AICE SOCIAL STUDIES

THINKING SKILLS

NHS AICE DIPLOMA TRACK REQUIRED COURSE

1 Credit

Grades 9-12

AICE Thinking Skills develops a set of transferable skills, including critical thinking, reasoning and problem solving, that students can apply across a wide range of subjects and complex real-world issues. The course enables students to develop their ability to analyze unfamiliar problems, devise problem solving strategies, and evaluate the diverse ways a problem may be solved. During a Thinking Skills course, students learn to put their personal views aside in favor of examining and evaluating the evidence. Students learn how to make informed and reasoned decisions and construct evidence-based arguments.

GLOBAL PERSPECTIVES

REQUIRED COURSE FOR AICE DIPLOMA TRACK

1 Credit

Grades 10-12

AICE Global Perspectives and Research is the course which all AICE diploma candidates must pass through here at Steinbrenner High School. The course is designed to study large, complex, global issues from a variety of perspectives. AICE Global Perspectives uses many of the elements from 9th grade AICE courses and not only prepares students for their 11th/12th grade AICE courses, but for college and career success as well.

CORE SOCIAL STUDIES COURSES

U.S. GOVERNMENT REGULAR / HONORS

Prerequisites: None

1 Credit

Grades: 9-12

This course gives students an understanding of the principles of U.S. government and political behavior essential for effective citizenship and involvement in a democratic society. Content emphasizes foundational documents, interaction of the branches of government, and methods of political participation.

WORLD HISTORY REGULAR / HONORS

Prerequisites: Teacher Recommendation for Honors Placement.

1 Credit

Grades: 10

This course provides students with an understanding of the chronological development of civilization by examining the political, economic, social, religious, military, dynastic, scientific, and cultural events that affect humanity. Time period begins with the Byzantine empire through the present and includes a review of the fall of Rome and the development of world religions.

SOCIAL STUDIES COURSES

CORE SOCIAL STUDIES COURSES

U.S. HISTORY REGULAR / HONORS

Prerequisites: Teacher Recommendation for Honors Placement.

1 Credit

Grades: 11

This course provides an understanding of the social, economic, and political development of the United States using tools of historical analysis. Time period covers Reconstruction through the present with a review of the U.S. Civil War. Passing the state assessment earns a graduation benchmark.

ECONOMICS & FINANCIAL LITERACY REGULAR / HONORS

Prerequisites: Teacher Recommendation for Honors Placement.

0.5 Credits

Grades: 12

This course provides an understanding of how societies organize limited resources to satisfy unlimited wants. Major characteristics of free-market, command, and mixed-market economic systems (i.e., the U.S. free-enterprise system) are a central focus. A unit of financial literacy introduces students to concepts like budgeting, credit, investing, and banking.

ELECTIVE SOCIAL STUDIES COURSES

FLORIDA HISTORY

Prerequisites: None

0.5 Credit

Grades: 9-12

This course focuses on the chronological development of Florida by examining the historic, political, economic, social, military, and cultural events that influenced the development of the state.

HOLOCAUST HONORS

Prerequisites: None

0.5 Credits

Grades: 10-12

This course examines the events of the Holocaust and enables students to understand their connection to the development of civilization. Using mature themes, this course connects students to the past to prepare for their future as members of a global community. The content includes an examination of 20th century pogroms and genocides.

LAW STUDIES

Prerequisites: Teacher Recommendation for Honors Placement.

1 Credits

Grades: 9-12

The course provides students an understanding of U.S. legal processes with an emphasis on Florida law. Course content includes criminal, civil, and constitutional law

SOCIAL STUDIES COURSES

ELECTIVE SOCIAL STUDIES COURSES

PHILOSOPHY HONORS

Prerequisites: None

0.5 Credit

Grades: 9-12

This course pertains to the study of the definition and historical application of philosophy. Content includes, but is not limited to, the study of classical and modern philosophies, the fundamental principles of philosophical thought, such as semantics, logic, inductive and deductive reasoning, and major figures of social, political and religious philosophies.

PSYCHOLOGY I & II

Prerequisites: Courses must be taken sequentially.

0.5 Credits

Grades: 10-12

This course provides students with the opportunity to expand an understanding of human behavior, behavioral interaction, and the progressive development of individuals. Content focuses on the biological bases of behavior, sensation, perception, memory, and cognition.

SOCIOLOGY

Prerequisites: None

0.5 Credits

Grades: 9-12

This course provides a basic understanding of group interaction and its impact on individuals. Specific content includes the methods of study employed by sociologists, social institutions, norms, social classes, and the relationships between the sexes. Units on racial and ethnic groups, the handicapped, societal determinants, group behavior, and the socialization process are also part of this course.

VIETNAM & OTHER AMERICAN WARS OF THE 20TH CENTURY

Prerequisites: None

0.5 Credits

Grades: 9-12

This course provides an in-depth analysis of wars involving the U.S. ranging from the Spanish-American War to the first Gulf War with an emphasis on the geopolitical events leading up to each war, the way each war was fought, and the short and long-term effects each war had on the American people. Students will compare wars to understand how the U.S. became and continues to be a world power.

WOMEN'S STUDIES

Prerequisites: None

0.5 Credits

Grades: 10-12

This course provides the historical development of women in various cultures, the role of women in shaping history, and contemporary issues that impact the lives of women in the 21st Century.

World Languages Courses

WORLD LANGUAGES COURSES

AP WORLD LANGUAGES

AP SPANISH LANGUAGE

Prerequisites: Spanish Level 4 and Teacher Recommendation

1 Credit

Grades: 11-12

AP language courses provide willing and academically prepared students with the opportunity to earn college credit and/or advanced placement. In AP Spanish Language and Culture, students are provided with opportunities to demonstrate their proficiency in interpersonal, interpretive, and presentational modes of communication. In addition, students engage in an exploration of culture in both contemporary and historical contexts.

WORLD LANGUAGES

FRENCH I - IV

Prerequisites: Courses must be taken sequentially. French III & IV are honors-level courses and require teacher recommendation.

1 Credit

Grades: 9-12

Level I course introduce students to the target language and culture while developing communicative skills and cross-cultural understanding. This includes beginning skills in listening, speaking, pronunciation, reading, writing and grammar. Subsequent course levels allow students to improve their skills, grow their knowledge base, and learn increasingly more advanced vocabulary and grammar structures.

LATIN I – IV

Prerequisites: Courses must be taken sequentially. Latin III & IV are honors-level courses and require teacher recommendation.

1 Credit

Grades: 9-12

Latin 1 students are introduced to basic Latin grammar and culture. Subsequent course levels allow students to improve their skills, grow their knowledge base, and learn increasingly more advance vocabulary and grammar structures.

SPANISH I – IV

Prerequisites: Courses must be taken sequentially. Spanish III & IV are honors-level courses and require teacher recommendation.

1 Credit

Grades: 9-12

Level I course introduce students to the target language and culture while developing communicative skills and cross-cultural understanding. This includes beginning skills in listening, speaking, pronunciation, reading, writing and grammar. Subsequent course levels allow students to improve their skills, grow their knowledge base, and learn increasingly more advanced vocabulary and grammar structures.

P.E. & Driver's Education Courses

P.E. & DRIVER'S ED. COURSES

H.O.P.E

Prerequisites: None

1 Credit

Grades: 9-12

The purpose of this course is to develop and enhance healthy behaviors that influence lifestyle choices and student fitness.

BASKETBALL I & II

Prerequisites: Courses must be taken sequentially.

0.5 Credit

Grades: 9-12

This course provides opportunities to acquire knowledge and skills in basketball that may be used in recreational pursuits and to maintain and/or improve personal fitness. The content includes in-depth knowledge and application of skills, techniques, strategies, rules, and safety practices necessary to participate in basketball.

DRIVER'S EDUCATION

Prerequisites: 15 years or older, valid learner's permit.

0.5 Credit

Grades: 9-12

The purpose of this course is (1) to introduce students to the transportation system and to strategies which will develop driving knowledge and skills related to today's and tomorrow's motorized society, and (2) to provide an in-depth study of the scope and nature of accident problems and their solutions.

GOLF

Prerequisites: None

0.5 Credits

Grades: 9-12

The purpose of this course is to provide students with opportunities to acquire knowledge and skills in golf that may be used in recreational pursuits today as well as in later life (application of putter, irons, woods and rules).

TEAM SPORTS I & II

Prerequisites: Courses must be taken sequentially..

0.5 Credit

Grades: 9-12

The purpose of this course is to provide students with opportunities to acquire knowledge of strategies of team sport play, develop skills in selected team sports and maintain or improve personal fitness level.

P.E. & DRIVER'S ED. COURSES

VOLLEYBALL I & II

Prerequisites: Courses must be taken sequentially..

0.5 Credit

Grades: 9-12

The purpose of this course is to provide students with opportunities to acquire knowledge and skills in volleyball that may be used in recreational pursuits (rules, strategies, skills, techniques).

WEIGHT TRAINING, I – IV

Prerequisites: Courses must be taken sequentially..

0.5 Credit

Grades: 9-12

The purpose of this course is to provide students with opportunities to acquire knowledge and develop skills in power weight training and maintain or improve health-related fitness and physical fitness pursuits.

“For the strength of the pack
is the wolf, and the strength
of the wolf is the pack.”

- Rudyard Kipling
