

# **Braulio Alonso High School**

## **International Baccalaureate Programme**

**8302 Montague St Tampa, FL 33635**

The IB DP Programme requires students to test in **six** areas (3 subjects will be taken at the Higher Level and 3 subjects at the Standard Level)

- **4** core academics
- **1** second language
- **1** elective subject

To fulfill the State of Florida requirements, IB DP Students must pass all required courses, complete all internal assessments and external assessments (including completed Extended Essay and Theory of Knowledge), complete required CAS hours (to include completed CAS logs on ManageBac), meet any state proficiency exam requirements, and sit for all required AP exams to satisfy graduation requirements. *Students in the IB programme do not need to meet an online course requirement, American Government, or HOPE. If for any reason, students exit the IB programme, these courses are required for high school graduation along with ½ credit course of World History.*

### **Standard Level versus Higher Level:**

“Both SL and HL courses are meant to span the two years of the DP. SL courses are recommended to have at least 150 hours of instructional time, and HL courses are recommended to have at least 240 instructional hours. In most cases both SL and HL courses consist of the same educational aims, core syllabus and curriculum and assessment models. HL courses typically also include a range of additional elements designed to allow students to explore areas of interest within the subject in more depth. In this sense, SL courses are not watered-down versions of their HL counterparts.” -IBO-
