7 Mindsets

Riverview high school has implemented new ideals called 7 mindsets. Initiated by principal Spiro for the 2022-2023 school year, the 7 mindsets is based on a multi-year research effort to the happiest and most successful people. The experiment involved interviewing 400 leading experts, some of the most successful men and women of the 20 and 21 centuries. This research was conducted by Jeff Waller and Scott Stickler concluded that the happiest and most successful people were not connected by race/ ethnicity or gender or where a person lives/ lived in the world, or how they were raised and what level of class they're from, instead it was shown the happiest and most successful people were connected because they all had the 7 mindsets. The 7 mindsets include Everything Is Possible: Embraces the positive power of dreaming big and maintaining positive expectations, Passion First: Establishes the need for connecting our passion to our pursuits for maximum progress, We Are Connected: Embraces and nurtures the value of empathy, community, and mutually supportive relationships, 100% accountable: Empowers students with the sense of ownership of their own lives, choices, and decisions, Attitude Of Gratitude: helps students stay positive by appreciating what they already have and what is already working in their lives, Live To Give: Fosters the value of making a positive difference in the lives of others as a key component of living a happy, inwardly rich life of meaning and building mutually supportive relationships, The Time Is Now: Inculcates in the young an appreciation of the vital importance of making every moment count.
