Kathleen Gomez

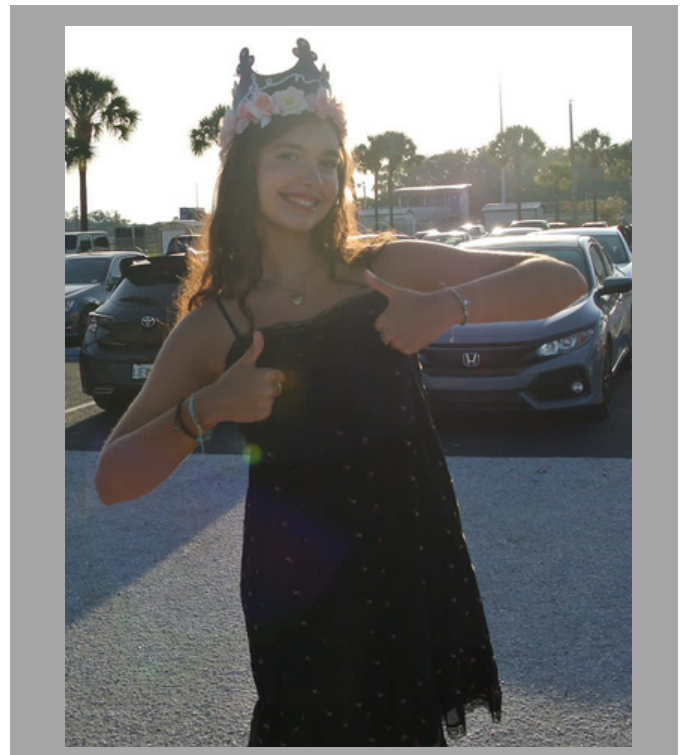

Valedictorian

“It’s definitely a big accomplishment, I’ve worked over the past four years to be able to get valedictorian.” Kathleen will attend University of Florida majoring in Biochemistry . “My favorite memory is Relay for Life, it’s amazing to see the impact that we can make on our community. My biggest piece of advice is to surround yourself with people who will only make you better.”

Maya Kalinowski

Salutatorian

“Making top 10 means a lot to me personally because it helped prove to me that all my hard work and time management paid off. I plan on attending university of florida and majoring in psychology with a concentration in behavioral and cognitive neuroscience. My favorite high school memories are all the dances- especially prom my junior year. My one piece of advice for freshmen is to surround yourself with people you can have fun with but who also push you to be the best version of yourself that you can be.”

Alisha Parshad

Number 3

“Making top ten means so much to me because it means that my hard work has paid off. After many years spent taking AP courses and Dual enrollment classes I can finally see that the time I put in has allowed me to stand out in a class with so many people in it. I plan on intending Southeastern University and getting my degree in Business & Communications. My favorite high school memory isn’t necessarily narrowed down to one memory but it is more all the memories I have made being the president of FCA and seeing how the work I put in has created an impact on so many lives around me. One piece of advice I would give to incoming freshman is to have a good balance! While academics are very important, there is a lot of life to experience in high school. There is opportunity to both excel academically and enjoy things like clubs and different school events as well!”

Congratulations to Class of '24 Top 10
