## Emergency Medical Technician - ATD

This Applied Technology Diploma (ATD) program prepares students for employment as emergency medical technicians. Students learn how to provide pre-hospital basic life support for people who are sick or injured. Students learn how to treat various medical and trauma conditions using appropriate equipment and materials.

Topics covered include patient assessment, airway management, cardiac arrest, bleeding and shock, traumatic injuries, poisoning, heart attack, stroke, patients with abnormal behavior, alcohol and drug abuse, emergency childbirth, burns, environmental hazards, communication, reporting, extrication, and transportation of patient.

Successful completion prepares students for the National Registry certification exam (NREMT) and to become licensed by the Florida Department of Health.
