**Dear Parents and Guardians of Students; Faculty and Staff:**

The Florida Department of Environmental Protection (FDEP) is a state agency that oversees the cleanup of sites throughout Florida. The FDEP is responsible for notifying School Boards throughout the state when any contamination is discovered at school property. School Boards which receive such notice are further required to notify all Faculty, staff, parents, and guardians of students attending the school.

In 2009/2010 school year, the FDEP notified the Hillsborough County School Board regarding the identification of soil and/or groundwater contamination at several school locations. This letter is to fill the annual requirement of notification for the identified locations. In addition, the School Board also decided to voluntarily expand their notification process beyond FDEP requirements to include other school locations based upon a review of available information regarding historical as well as more recent soil and groundwater testing results.

**DUE TO THE LOW POTENTIAL FOR EXPOSURE, THE SOIL AND/OR GROUNDWATER CONSTITUENT CONCENTRATIONS IDENTIFIED AT THESE LOCATIONS DO NOT POSE A SIGNIFICANT HEALTH RISK. THE SCHOOLS ARE SAFE FOR STUDENTS, PARENTS, STAFF AND VISITORS.**

A listing of the schools identified for which the School Board has/is providing notification at this time is as follows.
