Graduation Program Planning

Florida Shines provides an array of academic advising, career readiness and online learning resources for students and parents. These state-funded academic advising services make it easy for high school students to prepare for college or a career after graduation by enabling them to evaluate their progress toward high school graduation, college and career readiness and Bright Futures scholarship eligibility. In addition, they can explore Florida's college and university offerings (both traditional and online programs), learn about financial aid and apply for admission. Dual enrolled high school students and those in accelerated education programs can even access online library resources used within Florida's colleges and universities.

The [Florida Counseling for Future Education Handbook](#) (PDF) is annually updated to provide school counselors and advisors with a comprehensive academic advising resource to guide students with planning for postsecondary education in Florida.
