

Third Grade Reading Rocks Program

Dear Parents of Rising Third Graders,

Next school year, all third grade students will have an opportunity to participate in the Third Grade Reading Rocks reading enrichment program. Below you will find the book list that will be used next school year. There will be multiple copies of each title available in the Media Center and in Axis 360 (digital library collection) for your child to check out. There will be a program kick-off and more information to come next school year. I wanted to provide you with the book list early on, in case you wanted your child to get a head start on reading. If your child starts reading from this list this summer, I suggest having them keep a journal for summarizing each chapter (or listing characters and main events). There are lots of incentives and reading fun headed your child's way!

Happy Reading, Mrs. Melissa Irvin, Media Specialist
