

Title I Schoolwide

A Title I schoolwide program (SWP) is a comprehensive reform strategy designed to upgrade the entire educational program in a Title I school. Its primary goal is to ensure that all students, particularly those who are low achieving, demonstrate proficient and advanced levels of achievement on state academic standards.

Title I regulations requires the meaningful involvement of parents in school level planning, development, and design of initiatives to improve student achievement supported by Title I funds.

School level funds in Hillsborough County Public Schools provide:

- additional resource teachers and instructional coaches
- instructional materials and supplies
- additional planning and professional learning time for instructional staff
- expanded learning time for students
- substitute teachers while general teachers are engaged in professional learning
- academic student subscriptions
- instructional equipment such as laptops, smart boards, musical instruments

Schools receive additional funds to build the capacity of parents, teachers, and families to maintain a parent and family engagement plan that describes the school's approach to involve families in students' learning.
