## BE A PART OF THE TEAM!

### The HCPS Instructional Priority

All schools will implement systems and structures of accountability that ensure all students master learning, at the depth and breadth of the standards or better, in all classes.

Culture FOR Learning

Culture OF Learning

Data Informed Decision Making

#### Vision

Dowdell Middle Magnet will foster an environment that encourages students to maximize their potential while being accountable and trustworthy to themselves, the school, the environment, and each other.

#### Mission

Dowdell Middle Magnet will provide a secure and diverse learning community through equitable instruction where all students achieve academically.

TRUST

EQUITY

ACCOUNTABILITY

MAXIMIZE

Teaching empathy and empowering students to end social isolation by following three easy steps.

See Someone Alone

Step 1: Learn how to recognize the signs of loneliness and social isolation.

Reach Out And Help

Step 2: Find out what you can do to help others feel included.

Start With Hello

Step 3: Discover how to break the ice and strike up a conversation.

# MEDIA CENTER NEWS

Mrs. Hawley, Media Specialist

 Dowdell Middle School students have begun their yearlong Library Lessons: *Delving Into Dolphins*. They have come to the Media Center with their science classes to label dolphin anatomy and learn the diet, appearance, and habitat of different dolphin species. Ask your student to tell you about the River Dolphin's unusual appearance. 

## CONGRATULATIONS!

### Supporting School Library Programs

Mrs. Hawley has earned DMMS the prestige honor of being named a Florida Power-Library School. DMMS is 1 of the only 12 schools in HCPS to achieve this status.

The Florida Power-Library Schools program is sponsored by the Florida Association of Supervisors of Media and the Florida Department of Education's Library Media Services in order to recognize outstanding school library programs in Florida. Quality library programs have been proven to improve student achievement!

# We Shall Never Forget September 11, 2001

Ms. Roman, US History teacher

My class was able to make paper cranes in remembrance of 9/11. For those that don't know, while the 9/11 Memorial Museum was being built the Japanese students from New York would leave paper cranes on the fence, meaning, we are healing. One of the vocabulary words that my students had that week was legacy, and I explained that legacy is what's left for generations to come. 9/11 was a legacy that was left due to capitalism and greed. I hope my students enjoyed the students coming in with their paper cranes as they remember all of those who suffered, as we will continue to heal from that moment in US. History .

6th Grade  
**SCIENCE**

We are taking a closer look at What are the effects of Subsurface Events on the Earth's System? What does this include? learning about the rock cycle and the processes that create Sedimentary, Igneous and Metamorphic rocks. Subsurface actions as a result of plate movement, slow changes (mountain building and trenches in the ocean and rapid changes (earthquakes and volcanic eruptions)

7th Grade  
**SCIENCE**

We are diving into How do Body Systems Interact to Maintain Homeostasis? What are we learning in this sequence? Everything about the Human Body!!! From the Largest organ (the skin) to the cells that make up "us". The different systems of our bodies... Nervous, digestive, muscular, circulatory, and skeletal to close it all up we learn how they work together!!

8th Grade  
**SCIENCE**

We are still learning about Forces and Motion but, we are diving in a bit deeper to understand the complexity of balanced and unbalanced forces and how to calculate them, taking a look at how to interpret graphs for motion, velocity and acceleration.

All Grades  
**SCIENCE**

We are working on remediation of our standards that we require more assistance on... we have started PENDA Mondays where we work on re-learning our content to master each standard.

IAPS  
**SCIENCE**

We are starting to look into the unknown materials and substances on a microscopic level and are seeing the chemical portions of matter. Learning about chemical reactions and how they form new substances. We will look at each element and what it is made and composed of. Atoms and Molecules!!
