

## Valrico S.P.A.C.E. Program Intent\*

Students Parents And Community Education

S.P.A.C.E. is Valrico Elementary's before and after school program designed to enhance your child's life every day. The S.P.A.C.E. morning program offers quiet activities to prepare your child's mind for learning. The afternoon program offers daily homework and tutoring time, enrichment in the Florida Standards, music enrichment, and a quality sports and recreation program designed to improve students overall fitness and skill level.

The Valrico S.P.A.C.E. Program is the vision of Sam Macko, an educator that wants to make a difference in the lives of children long before and after the bell rings. His belief is that children need a safe place to go before and after school where their physical, emotional, social, and intellectual needs can be met by qualified instructors.
