

Back to School Safety Steps for Parents and Students

Please check your child each morning for signs of illness. If your child has a temperature of 100.4 degrees or higher, or a cough, or shortness of breath, or loss of taste or smell, or if they have been in direct contact with someone who has COVID-19, they should not go to school.

If your child is riding the bus, please have them practice social distancing and wear their face covering. The bus will be cleaned throughout the day and in the evening.

If you are dropping your child off at school, please drop them off in the designated area. For safety reasons, parents will not be able to walk students into their classrooms.

If your child is riding a bike or walking to school, please have them enter their school in the designated area with their face covering on.

When your child is in their classroom, your child will wear their face covering, practice social distancing, wash their hands, and use hand sanitizer frequently.

When your child is changing classes, your child will wear their face covering. They will also follow directional signs that will help all students with social distancing.

Water fountains will be turned off for safety reasons. Your child should bring a water bottle to school. Water bottles will also be provided at school.

During lunch, your child will wear their face covering when waiting in line for food and practice social distancing. They will be able to remove their face cover while eating. They will need to put their face mask back on before leaving the table.

If a child presents COVID-19 symptoms, parents will be contacted to pick up their child immediately.

All buildings and workspaces will be cleaned throughout the day and in the evening.
