# Summer Learning Program Overview

## Rationale

The Summer Learning Program is designed to provide continuity of learning, strengthen core content understanding, and minimize the impact of learning loss over the summer. Research shows the following trends: achievement typically slows or declines over the summer months, declines tend to be steeper for math than for reading, and the extent of loss increases in the upper grades. In response, the Hillsborough Summer Learning Program (SLP) targets the following key areas of focus: elementary literacy and STEM, middle school grade enhancement, high school credit recovery, exceptional student education services, and enrichment opportunities.

## Expected Outcomes

Students who participate in SLP will be better prepared for the next school year. This comprehensive PK-12 program will provide for continuity of learning, strengthen core content understanding, and minimize the impact of learning loss over the summer.

## Eligible Students

SLP is for students who are currently enrolled in Hillsborough County Public Schools. Additional eligibility criteria, specific to each program, is included under the program descriptions (see section titled “Eligibility Criteria”).

## Enrollment and Registration

The summer calendar begins June 12 and ends August 3, Monday through Thursday, except the week of July 4 which will be Monday, Wednesday, Thursday, and Friday. Program locations and times are listed in this guide and may change based on enrollment and/or student needs. Eligible students will receive an SLP notification letter with specific program details including dates, times, and the assigned school.

Parents will be asked to confirm participation by responding directly to the school program contacts. Upon confirmation of participation, the student will be enrolled in the program by the school. Questions about registration and transportation should be directed to the student’s current school administrator.

Students with disabilities attending an ESE summer learning program will be assigned to a school by district staff based on the student’s summer address. The high school attendance boundary is used to determine the summer site for middle and high school ESE students. Parents will receive a letter confirming the assigned site and program details.

## Migrant and English Learner Language Student Support

Migrant students and English language learners are provided additional support to meet the expectations of the program in which they are enrolled at specific sites as determined by need.

## Related Staffing and Student Support Services

In order to provide an optimal learning environment, related staffing and services are provided as additional support to meet student needs and program expectations. This includes psychological

services, school counselor services, social work services, health services, migrant and ELL instructional support, administrative staffing, instructional support staffing, student nutritional services, and transportation for eligible students within the core and required programs.

## Transportation Services

Transportation services are provided for eligible students enrolled in elementary, middle school, and ESE programs that are required for academic benchmarks and/or promotion.

## Student Nutritional Services

Breakfast and lunch are provided for all students enrolled in a summer program.

## Employment Application Information

SLP positions will be posted on the HCPS Staff Hub beginning in April. The posting will include dates, locations, responsibilities, certification requirements and pay rates.

To apply for a summer position, applicants should complete the 2023 SLP Application online form. The link to the form will be available on Staff Hub>District Offices>Human Capital>Summer Learning Program. The link may also be requested from a site administrator.

The principal, site administrator, or designee is responsible for hiring. The SLP administrator will communicate directly with applicants and complete personnel transactions for hired employees.

## Elementary School Programs

### Voluntary Prekindergarten Summer

Program Description	
The Voluntary Prekindergarten Program (VPK) is designed to equip children with skills essential for future kindergarten and school success. The VPK program provides 300 hours of quality instruction with an emphasis on literacy skills and developmentally appropriate curriculum delivered by a certified teacher.	
Eligibility Criteria	
Children who will be entering kindergarten in the fall of 2023 and have not previously used a VPK Certificate.	
Dates and Hours	
Teacher Training: 6/1/2023	Teacher Preplanning: 6/2/2023
First Student Day: 6/5/2023	Last Student Day: 7/25/2023

### Third Grade Reading Camp

Program Description	
The Third Grade Reading Camp provides reading instruction and interventions aligned to Florida's Benchmarks for Excellent Student Thinking (BEST) for students who have not yet met the third-grade promotion requirements. The program will feature a weekly theme to cultivate interest as students work toward meeting criteria for a good-cause promotion. Assessment at the start of the program will be used to identify areas of strength and opportunities for growth. Students will be placed in small groups for individualized interventions with a focus on phonemic awareness, phonics, fluency, vocabulary, and comprehension. Students will engage in collaborative and independent practice using high interest, quality text, providing opportunities to transfer and apply reading behaviors and increase success in reading grade-level, complex text.	
Eligibility Criteria	
Retained third grade students who did not meet promotion requirements.

## Summer Learning Academy K-5

Program Description	
<p>The K-5 Summer Learning Academy is designed to strengthen core content understanding and foundational skills through a hands-on interdisciplinary experience. Students will participate in small group instruction to increase literacy, math, science, and social studies content knowledge and skills. Weekly themes will provide context and relevance for the application of academic skills to solve real life problems. The STEM content will include science standards to engage students in science and engineering practices such as: asking questions; defining problems; developing models; carrying out investigations; using mathematics, information, and computer technology. The Social Studies content will focus on key principles of history, geography, civics, and character education, including literacy standards that engage students in text-based writing and research as well as collaborative discussions to encourage confidence and self-expression. Literacy will incorporate high quality text focused on phonemic awareness, phonics, fluency, vocabulary, comprehension and writing in support of content learning. The goal of this program is to promote enthusiasm for learning and equip students with essential skills for academic success.</p>

## Mission: Tampa Bay

Program Description	
The world is filled with millions of questions that have yet to be answered. This camp, hosted at The Florida Aquarium and MOSI, is the first step to building and using a toolkit that will explore Earth's last frontier- the deep ocean. This five-day immersion program places STEMitists (girls, incoming 6th-8th grades) into teams where together they will plan, prepare, and execute their own unique investigation to find out what is plaguing Tampa Bay. The camp will start and end on the water where they will use various scientific tools to help them on their journey to solving real world problems. Girls from around the district will be invited to participate in this unique camp based on grant elements.	
Eligibility Criteria	
Students who are entering 6th-8th grades in a one of HCPS public schools and are female will be given the opportunity to enroll in camp by invitation and teacher recommendation.

Program locations may change based on enrollment and/or student needs. Locations of additional program offerings will be determined upon approval of summer sites, with consultation of program supervisors and pending review of summer construction.

Eligible students will receive an **SLP notification letter** confirming specific program details **including dates, times, and the assigned school.**

Students with disabilities attending an ESE summer learning program will be assigned to a school by district staff based on the student's summer address. The high school attendance boundary is used to determine the summer site for middle and high school students participating in the ESE program. Parents will receive a letter confirming the assigned site and program details.
