Adult Education

Adult Education Programs include a range of instructional programs that help adults get the skills needed to be productive workers, family members, and citizens. The purpose of adult education is to enhance general educational skills such as reading, writing, mathematics, and English competency. The hope is to help adult learners gain the knowledge and skills necessary to be successful workers, citizens, and family members.

The Adult Education Program also offers Official GED preparation and testing.

Adult education programs are available to individuals:

- 16 years or older
- Are not enrolled or required to be enrolled in secondary school

- Want to learn to speak, read, and write the English language
